

tasklist.org - A comprehensive list of processes running in your computer

Filename: B9.exe

Name: b9

Description: FireTrust Benign - allows you to receive e-mail which is safe from viruses, worms, scripts, web bugs, privacy threats and other security risks, without affecting your e-mail. Benign neutralizes or strips out the code that makes viruses, worms, scripts and other potentially harmful things run

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
