

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: Gear511.exe

Name: AS00 Gear511

Description: Software for Netgear wireless network cards. Unknown whether it is required for the wireless card to run but does not seem to be a resource hog. Not required for laptop to run if the wireless network card will not be used. **Is it at all required?**

Recommendation: Unknown

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
