

tasklist.org - A comprehensive list of processes running in your computer

Filename: HCDetect.exe

Name: HCDetect

Description: MS HomeClick Network - simple home network setup and configuration program included with 3Com HomeConnect home networking products. Runs in the background for network printer notification, detection, and Internet Connection Sharing (ICS) taskbar icon. Not required - network can be set-up manually, also has a known memory leak problem

Recommendation: Not required - typically infrequently used tasks that can be started manually if necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
