

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: Kalibump.exe

Name: Kalibump

Description: Used with the now unsupported [Kali](#) software for on-line gaming. This is used to automatically bump up the priority of WinProxy to GREATLY improve game speed when using a SOCKS proxy

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
