

tasklist.org - A comprehensive list of processes running in your computer

Filename: MAILCLEANER.EXE

Name: MailCleaner

Description: MailCleaner protect your computer from viruses sent to your machine via the popular e-Mail reader Incredimail. In addition the program will check all incoming files downloaded by Internet Explorer, Netscape Navigator, ICQ and iMesh - not recommended as it bundles [Gator](http://www.doxdesk.com/parasite/Gator.html) adware

Recommendation: Definitely not required - typically viruses, spyware, adware and "resource hogs"

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
