

tasklist.org - A comprehensive list of processes running in your computer

Filename: PAgent.exe

Name: PAgent

Description: Scans your hard drive for the popular P2P file-sharing applications BearShare, Grokster, Kazaa, Limewire and Morpheus. After searching the entire local filesystem for any files with those names it connects to the DownloadWare servers and tells it what, if anything, is found. See [here](#) for more info

Recommendation: Definitely not required - typically viruses, spyware, adware and "resource hogs"

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
