

tasklist.org - A comprehensive list of processes running in your computer

Filename: PSFree.exe

Name: PSFree

Description: www.panicware.com/product_psfree.html>Pop-Up Stopper Free from Panicware. Pop-up blocker integrated into the IE toolbar. Note that the Pro version doesn't load in startup as it is installed as an Internet Explorer toolbar. Can cause problems with IE if you use WinXP and uninstall Service Pack 1. Uninstalling the software leaves it in the startup group

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
