

tasklist.org - A comprehensive list of processes running in your computer

Filename: QFSched.exe

Name: QuickFinder Scheduler

Description: Used in Corel 2002 & Corel Suite 7 - finds files faster by indexing your files (similar to Microsoft's Find Fast or Fast Search for its Office products)

Recommendation: Not required - typically infrequently used tasks that can be started manually if necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
