

tasklist.org - A comprehensive list of processes running in your computer

Filename: QSORT.EXE

Name: QSort2000

Description: Utility that sorts your Start menu and Favourites in alphanumerical order. Not required - at any time you can right-click on these lists and choose "Sort by Name"

Recommendation: Not required - typically infrequently used tasks that can be started manually if necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
