

tasklist.org - A comprehensive list of processes running in your computer

Filename: RAMASST.exe

Name: RAMASST

Description: Optionally installed with some DVD drives (LG, Panasonic, etc). Disables Windows XP's CD-burning abilities because they cause some incompatibilities. It does not affect your ability to burn CDs. If you do not have this program running, you may have some compatibility issues with burnt DVDs

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
