

tasklist.org - A comprehensive list of processes running in your computer

Filename: UD.EXE

Name: Automatically launches the United Devices Agent when you start your computer

Description: The United Devices Agent can recycle your PC's unused resources and use them to perform valuable scientific and medical research without disturbing your usual computer use - similar to SETI@home but for medical research. Available via Start -> Programs

Recommendation: Not required - typically infrequently used tasks that can be started manually if necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
