

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: Wallpaper.exe

Name: WallpaperChanger

Description: A wallpaper changer and manager utility. There is the Freeware version and the Pro version. The freeware version is completely free. The Pro version is 30-day trialware, and after the 30 days some of the more advanced features will be disabled unless you register it

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
