

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: cwbckver.exe

Name: cwbckver

Description: Part of IBM's [iSeries](#) (nee As/400) Client Access - communications suite that allows desktop, browser and wireless access to iSeries servers. Checks the software version on your PC to that of the iSeries it is connected to. Not required - and can be turned off in the Client Access properties. It's a waste of resources

Recommendation: Not required - typically infrequently used tasks that can be started manually if necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
