

tasklist.org - A comprehensive list of processes running in your computer

Filename: dadapp.exe

Name: DadApp

Description: "DadApp is the SW utility that controls the programmable buttons on Dell Laptops. Not required, but should be left in because it can create a hassle and doesn't always restore functionality to those buttons once unchecked and rechecked" - direct from Dell

Recommendation: Normally leave to run at start-up

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
