

tasklist.org - A comprehensive list of processes running in your computer

Filename: dbserver.exe

Name: Gravis Appawareloader

Description: Looks like it's associated with [Gravis](#) game controllers and the Keyset Manager, allowing the user to program the buttons for games that don't support them

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
