

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: e\_srcv02.exe

Name: EPSON Status Monitor 3 Environment Check 2

Description: According to the Epson info: "Use this utility to automatically check for errors and also check the level of ink remaining." This utility can also be started on demand when about to print as follows: File menu > Print to bring up the print dialog box. Click on the Properties button which will bring up a display with 4 tabs. Click the Utility tab to get a list of utilities that can be executed including the Status Monitor 3 Environment Check  
Recommendation: Not required - typically infrequently used tasks that can be started manually if necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
