

tasklist.org - A comprehensive list of processes running in your computer

Filename: edonkey2000.exe

Name: eDonkey2000

Description: File sharing network - not recommended as the free version of this application should be avoided as it installs, without permission, New.Net, Webhancer, WebSearch Toolbar and WinTools

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
