

tasklist.org - A comprehensive list of processes running in your computer

Filename: fatrecov.exe

Name: fatrecov

Description: SCKeYLog.j – keystroke logger/monitoring program. Given a U recommendation because it depends if you intentionally installed it. If you didn't treat it as X and uninstall or remove

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
