

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: fhtisxk.exe

Name: Fhtisxk

Description: XtraKeys - keylogger (monitoring program). Given a U recommendation because it depends if you intentionally installed it. If you didn't treat it as X and uninstall or remove via Spybot S&D (for example)

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
