

tasklist.org - A comprehensive list of processes running in your computer

Filename: m.txt

Virus Name: Worm/Antiman.E

Type: Worm

Risk: High

Description: This worm propagates by sending a link to all the contacts of an affected user's AOL Instant Messenger. When clicked, a copy of the worm is downloaded onto the contact's system. It also appends a message in an attempt to entice the recipient to click the said link and download this worm.

%system drive root%\m.txt

Recommendation: Definitely not required - typically viruses, spyware, adware and "resource hogs"

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
