

tasklist.org - A comprehensive list of processes running in your computer

Filename: mstask.exe

Name: Planlægningsagent

Description: Windows Task Scheduler (on Danish language versions of Windows) - displayed as a box with a stopwatch in the System Tray. Required if you have regularly scheduled tasks like defragmenting, ScanDisk, weekly virus scans and so on

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
