

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: oahstifr.exe

Name: oahstifr

Description: Comes with [HyperTextStudio](#). From the supplier - "The Oserver maintains the database for HyperText Studio projects - absolutely vital, it verifies all the links etc in a site. It runs as a service in NT, 2K and XP but needs to start up in Win 9.x so you'll see a DOS box for a short while during boot up."

Recommendation: Normally leave to run at start-up

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
