

tasklist.org - A comprehensive list of processes running in your computer

Filename: slipgui.exe

Name: slipgui

Description: User interface for Slipstream - internet acceleration through

compression/decompression techniques, intelligent cacheing on the server side, and real-time

conversion of large/high-bandwidth images to less bulky pix. Used by popular ISPs such as

IceNet, Wanadoo, Terra, OnSpeed, United Online and AOL Canada. Required if the user's account is locked in to that proxy server

Recommendation: Normally leave to run at start-up
