

tasklist.org - A comprehensive list of processes running in your computer

Filename: version.ini

Virus Name: Worm/Agent.YP.2

Type: Worm

Risk: Medium

Description: Agent is a Trojan for the Windows platform. Agent can steal information and may attempt to hide its files. The Trojan can make contact with a remote internet site, and may be used in DDoS attacks.

%SYSDIR%\version.ini

Recommendation: Definitely not required - typically viruses, spyware, adware and "resource hogs"

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
