

[tasklist.org](http://tasklist.org) - A comprehensive list of processes running in your computer

Filename: wcmdmgrl.exe

Name: WildTangent Web Driver updater

Description: [Web Driver](#) delivery system for [WildTangent](#) on-line games. Periodically checks for updates - can be disabled within the programs control panel. Note that WildTangent's [privacy policy](#) used to state that they also collect and share individuals information but this is no longer the case

Recommendation: User's choice - depends whether a user deems it necessary

We found that [Easy SpyRemover](#) is the most effective tool for removing this file.
